Ford called Marco in the last hour..

Ford said the Chief Public Health Officer of Ontario will announce tomorrow the end of passports.

On Friday, Ford will go out and announce the end of "mandates"

Ford said he's prepared to "stand with the PM", which Marco interprets as Ford as nudging the feds to also drop rules...and if we do Ford will support us. If we don't, he may call on us to do to.

Marco said he would relay to the boss.

Marco put back to him, *"I've got a more immediate problem and that's Ambassador bridge."* *"I said to Ford even if you announce this, no guarantee they'll leave."* *"I said we need Sylvia at the table, I need you to instruct her to be there. He said he would do that"*

I took the opportunity while speaking to Marco to underscore that we really need to announce more resources for Windsor and Ottawa especially.
